Wildlife Education Foundation (WEF) – Sponsor Project “Sustainable Development through Education”

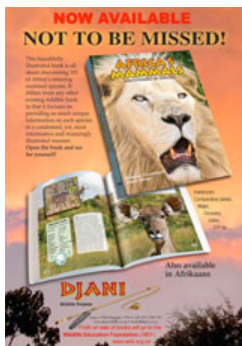

In order to fulfil our vision, mission and objectives, the WEF (a registered Non-Profit Organisation, registration no: 078-886 NPO) needs to raise the necessary funds, which we do in a sustainable way by either applying our professional skills and expertise (see our "Ways to Support" document), or specific sustainable fundraising projects such as the one below:

Two brand new first edition, hardcover wildlife books

These amazing books are ideal executive corporate gifts (to view: www.wild.org.za/fundraising.html). You may also choose to sponsor ten or more books, which the WEF will distribute on your behalf to underprivileged schools, learners and/or another relevant group as part of our Education for Sustainable Development programme.

Orders can be emailed or faxed to the WEF and on receipt of your order, the WEF will contact you with our banking details and to arrange delivery. (NB: General retail price of these books vary between R299 to R360/book)

Company: _____ Email: _____
